United Cutlery takes its classic and popular M48 Tomahawk design and gives it an updated look and feel with the M48 Liberator Infantry Tomahawk - part of a brand new series of tactical tools. The 8 3/8" tomahawk head is cast of 2Cr13 stainless steel with a black oxide coating and satin finish highlighting. It has a 3 2/5" razor-sharp blade edge on one side, a piercing point on the other side and the head has recessed circle patterns and the M48 logo. The injection-molded nylon handle has custom, heavy texturing for a slip-free grip and is secured to the head by three heavy-duty bolts. The 15 3/4" overall tomahawk slips into a tough, TPU and nylon blade sheath, which features a belt frog design for ease of carry.
