The next stage in karambit design, these tactical kerambits were designed to excel. Each kerambit features a 2 3/16" blade with a large sweeping tip that slashes and stabs with ease. An over-sized finger hole and ergonomic skeletonized handle design allow this tactical knife to be held for striking with either the left or right hand. An easily concealed, injection-molded-nylon belt sheath has been fitted to retain the blade with an exact amount of tension so it can be easily removed from the sheath, but not fall out even in an upside down position. Blade Material: 3CR13 Stainless. Handle Material: 3CR13 Stainless. Blade Length: 2 3/16". Overall Length: 5 3/8". Sheath: Injection molded nylon multi-position belt sheath.
